

CAL 4K LIFTS

PNEUMATIC DIESEL FORKLIFTS FDX16 / FDX18 / FDX20S

£POA

The smallest IC trucks in our Nexen range. Available in diesel, LPG and dual fuel. Included in the range is the 20S series. A 2 tonne capacity machine built on a 1 tonne foot print using the same chassis as the 1 tonne model.

Offering a standard drum brake transmission with optional Japanese Okamura high spec drum brake for heavy industrial use, or an Optimal+ wet brake system. Laptop-free maintenance can be achieved using our Smart Dash technology with on-board diagnostics. Equipment can be tailored
